PLEASE NOTE THE FOLLOWING INFORMATION CONCERNING THE BID SPECIFICATIONS AND ADJUST YOUR BID ACCORDINGLY.

1. Question: Am I correct in understanding that I can offer items of equal quality?

Answer: Equals must meet all specifications. Literature must be included so we can make that determination.

2. Question: Are the solenoid valves 110 VAC? Also is ASCO a suitable solenoid valve?

Answer: 110 VAC. ASCO is acceptable.

3. Question: According to the description of articles there is no mention of limit switches. Is this correct?

Answer: Limit switch is mentioned on Item 4 only.

4. Question: I wish to substitute the cylinder actuator with a rack-and-pinion type actuator? Is this acceptable?

Answer: We need the same type actuator as on the specified valve on bid.

5. Question: What medium will these actuators be operated on? Air? Oil? Water?

Answer: Water and Sewerage.

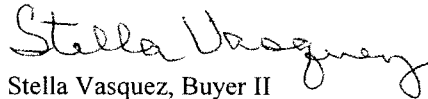

6. Question: Are the valves mentioned in the description of articles existing valves and currently installed? If so, the substitute valve I would like to propose may have a smaller face-to-face dimension. Will a spool piece be acceptable?
